To whom it may concern.

So you want to know why some people Polio  
from my observation it is the soft beverage  
that is the cause.

My 2 girls 12 & 14 years of age were sick  
drinking it I asked my wife why she let  
them it she said they like it after I warned  
her it was not fit to use, it was nothing but  
chemicals.

Please have those soft drink analysed maybe  
you will see what they are selling for soft drinks.  
I had a patient he said his son is working in a  
Distillery in Ill. he wrote him that they were making  
5 year old whiskey in a week in answer he wrote  
that's nothing we are making beer in 6 hours here.  
All our governments doing nothing about it.

Yours truly,

Dr. Peter J. Smith

P.S. I gave my girls several treatments then they felt fine.

ST. PAUL, MINN. 4

Dec. 28 - 1946

Dear Doctor Maurice B. Visscher

Dear Sir:-

I wrote you about 2 weeks ago  
what I am sure is causing Polio and  
here is my answer.

In the hottest weather Polio was the worst  
and as the weather got cooler it decreased  
so the people decreased in their drinking  
of soft drinks, and since it is cold there  
is drinking of soft drinks, also less Polio.  
I am sure it is the soft drinks that is  
causing Polio.

You don't hear much about Polio in other  
States, so I blame the soft drinks in the  
Twin Cities for all our trouble.

Yours truly

Dr. Peter J. Smith, D.C.
